

## Black'Peps Automatic 0.5 mm Mechanical Pencils

### Write endlessly without clicking!

No need to reboot and fewer broken leads! The Maped Black'Peps Automatic refillable mechanical pencils are REALLY AUTOMATIC!

Upon contact with paper, the lead descends automatically as you write and always keeps the correct length. Its Price is also very attractive.

#### Maped Black'Peps Automatic: the really smart mechanical pencil

No more interruptions when taking notes or jotting; no more smudging due to broken tips, thanks to the innovative automatic lead feed system.

With Maped's Automatic No Click system, you can really focus on what you are writing!

#### Technical, with a great design as a bonus

Designed with a soft, textured coating for a comfortable grip, Maped pencils are lightweight, ergonomic and suitable for all types of use: writing, notes, drawings...

Their retractable tip provides excellent protection – the pencils can be quickly tidied away into a pencil pot or stored in a pencil case.

From secondary school onwards, Black'Peps Automatic pencils will thus be the perfect partner for those seeking a truly automatic, reliable and stylish mechanical pencil.

#### A choice of 3 colours

- White / Turquoise
- White / Green
- White / Pink
